

## TOPIC TRAINER

### Initial Trainer Qualification Criteria and Annual Renewal Requirements

There are two separate trainer types within The Nevada Registry’s training approval system: Early Childhood Trainer and Topic Trainer. Individuals will qualify as one or the other; not both. One in a series of resources available to trainers, this document outlines the criteria that must be met in order to qualify as a Topic Trainer.

#### Definition of Topic Trainer

Topic Trainers are professionals in their fields of expertise whose knowledge can be beneficial to the Early Care and Education (ECE) workforce. Topic Trainers most commonly provide training related to health and safety topics necessary to meet the initial training requirements of Child Care Licensing (Signs and Symptoms of Illness, SIDS, etc.). Qualification to become a Topic Trainer is based on formal education, experience as a trainer and specialization in specific topic areas. **Topic Trainers are limited to train in topics specific to their area(s) of specialization only.**

#### Trainer Category

Before the Topic Trainer *type* is assigned, an individual’s trainer *category* is determined based on their training delivery intent, the frequency that training will be delivered, whether he/she is being sponsored by a center/organization and whether he/she represents a national organization recognized by The National Workforce Registry Alliance or other recognized organization included in the [Professional Development Acceptance Guidelines](#) document of The Nevada Registry. Whereas, an individual’s *type* determines the **content** he/she can provide, an individual’s trainer *category* determines his/her initial **application/renewal requirements**, regardless of his/her assigned trainer *type*. Seven trainer categories have been defined. The chart that follows provides detailed information regarding each of the seven identified *categories*.
