AGENDA

- 1.Public hearing presentation on proposed amendments to NAC Chapter 432A in LCB File No. R182-18.
- 2.Public Comment on proposed amendments to NAC Chapter 432A in LCB File No. R182-18.
- 3.**For possible action:** Consideration and adoption of proposed amendments to NAC Chapter 432A, LCB File No. R182-18, Services and Families for Care of Children
- 4.Public Comment.

The proposed changes will revise Chapter 432A of the Nevada Administrative Code and are being proposed in accordance with Senate Bill No. 189, section 4.2, of the 2017 legislative session which is found in NRS432A.184. The statute requires a grading system that rates childcare facilities based on mandated inspections which would now result in a letter grade of A, B, C, D or F. Opportunities for re-inspection and improvements are delineated within regulations. Once a final grade is issued to a facility, Child Care Licensing has 60 days to post the letter grade on the Division website and the facility will be required to post the grade.

Therefore, the proposed changes to NAC 432A include the following:

- Regulations establishing a criterion for facility grading and posting

1. Anticipated effects on the business which NAC 432A regulates:

A.*Adverse effects:* None anticipated

B.*Beneficial:* These regulations are providing clear guidelines, which include requirements of grading through scope and severity. These changes institute good policy and help to ensure and maintain safety in the best interest of the children within our State.

C.Immediate: Upon passage of the proposed regulations will promote equity of implementing best practice throughout the industry with concise measurable standards and outcomes.

D.Long-term: The regulations will provide integrity and promotion of best practice throughout the industry and continue appropriate risk assessment by supporting child safety.

2. Anticipated effects on the public:

A. *Adverse:* No adverse effects on the public are anticipated.

B. *Beneficial:* Increased professional understanding of Early Childhood Educational needs and strengthening of safety measures for children who spend most of their days in licensed child care facilities.

C. *Immediate:* Upon passage of the proposed regulations will increase child safety

D. *Long-term:* Will help to increase child safety and enhance Early Childhood Educational training needs.

3. The estimated cost to the Division of Public and Behavioral Health for enforcement of the proposed regulations is inconsequential to the agency for enforcement of the proposed regulations as it can be incorporated into the inspection process.

The proposed regulations do not overlap or duplicate any other Nevada state regulations.
