2021 VIRTUAL ANNUAL CONFERENCE: YOU MATTER!

April 16—May 1, 2021

Every year NDE's Office of Early Learning & Development provides ECE professionals with an opportunity to attend the annual NevAEYC Conference at no cost. This year is no different! We are happy to announce this year's scholarship includes access to all sessions, as well as a year of membership to NAEYC. To be eligible, you must be working in a QRIS participating Child Care Center, QRIS participating FCC,

Tribal Program or as a teacher in a Nevada Ready! Pre-K classroom. The application was created using Google Forms, and requires a computer and internet to submit. You do NOT need to print the application, you must submit using the link provided. We recognize that some ECE professionals that might not have a personal computer, smart device, or internet access. This will present some challenges to submitting the application and participating in the conference. We respectfully ask that all directors and teachers with devices and Wi-Fi to be especially sensitive to those who do not, and consider creative ways to allow ALL to participate. Please help those without email addresses and computers to apply so they might have the same learning experiences as others. THANK YOU!
