

# Introducing the Nevada Strong Start Child Care Services Center!

**Coming in January 2022**, The Children's Cabinet, through funding from the American Recovery Plan Act (ARPA), will be opening the Nevada Strong Start Child Care Services Center. Two physical locations, one in Reno and one in Las Vegas, as well as a virtual Services Center, will serve as a one-stop-shop that connects all types of providers with services and systems.

**The purpose of the NV Child Care Services Center** is to bring together partner organizations from both the public and private sectors under one roof. Together, we will create systems that are aligned, coordinated and centered on meeting the needs of child care providers and families.

**Child care providers** of all types, including center-based, home-based and Family, Friends and Neighbors (FFN), will have one location to access resources, supports and information needed to operate their business and provide the highest quality care available to the children and families they serve.

**Support for child care providers** includes: training, quality improvement, small business administration resources, networking, behavioral and health referrals for children, child care subsidy resources, educational and professional development grants, small business loans, early childhood substitutes and many more!
